

# The Bat Fold

Lay the nappy out in a flat square

Fold the nappy in half from the top

Then fold in half from the left

With the top layer only, take the bottom right corner and move it to the bottom left, creating a 

Turn it over. Lifting from the bottom

Fold into thirds from the right

And fold again

Place the baby on the nappy and pull the bottom of the nappy up.

Bring one wing around the baby to the front

And then the other one

Fasten with a nappy nipper

At the moment the legs are loose and can let poo escape

Roll the fabric into the legs, like the edge of a pasty

And then the other one, this will give much better containment

Admire your new folding skills

Before adding a waterproof wrap
